Highly fashionable: aluminium architectural fittings in matt black

There is a good reason why black is such a popular colour for door and window handles – depending on how they are combined, they can create very different effects in living spaces: elegant and unobtrusive or high-contrast and vibrant.

Lovers of black will find a large selection of different door fittings and window handles at HOPPE, such as aluminium architectural fittings in black matt, which are available from us in the colour designation F9714M.

Many of HOPPE’s most popular series such as Dallas, Tôkyô and Toulon are available in F9714M – in many cases both as a door handle set and as window handles, available with or without burglary-resistant technology.

The HOPPE architectural fittings in black matt are manufactured from aluminium, an ideal material for door and window handles. The natural corrosion protection that forms when the material is processed makes aluminium architectural fittings extraordinarily resistant to environmental influences and mechanical damages. Furthermore, aluminium handles have no adverse effects on health whatsoever and can be fully recycled without loss of quality. Aluminium architectural fittings do not require special care – any dirt can be removed quite simply using a damp cloth.

Like all HOPPE products, handles in the colour F9714M are made in Europe and are covered by a ten-year guarantee on mechanical operation. After all, HOPPE architectural fittings are brand products – which HOPPE considers a promise of quality.
Interior door sets
Hamburg - 1700/42FI/42FIS

HOPPE aluminium handle set on rose with escutcheons for interior doors:
• Bearing: loose door handles, non-handed spring cassettes, maintenance-free slide bearing
• Connection: HOPPE Quick-Fit connection with HOPPE solid spindle (spindle - receiver components)

HOPPE divides its product range into three lines based on the customers’ different requirements in price and perception of value – duravert®, duraPLUS®, and duraNORM®. The purpose behind this is to enable you, our partners, to get a better overview of our product range and to make it easier for you to find the right handle of excellence.

Assessments for HOPPE products

- **SundaHus Material Data**
  - Produkten finns med i SundaHus Miljödata
  - SundaHus Material Data supports making environmentally conscious material choices within the construction and property markets. HOPPE aluminium and stainless steel door handles and aluminium pull handles are listed at SundaHus.

- **Byggvarubedömningen**
  - BYGGVARUBEDÖMNINGEN
  - Byggvarubedömningen is a non-profitable organization and its assessments are based on criteria concerning chemical content and life cycle aspects. BVB aims to support wise choices of material for a good living environment.

- **HOPPE aluminium door-, window handles and accessories**
  - HOPPE aluminium door-, window handles and accessories have received the status “recommended” at Byggvarubedömning.

- **BASTA**
  - BASTA is a self-declaration system for registering products that meet the BASTA or BETA criteria requirement concerning substances with hazardous properties. HOPPE products do not contain chemicals that are dangerous for health and environment.
